Developing winning test variations is great. Knowing what in your variation caused users to behave differently is better.

So why test blind when you can see the full picture?

ContentSquare’s integration with AB Tasty adds in-depth behavioral understanding to your testing for faster results and a bigger lift in conversions.

We can quickly tell you why some tests win, and help you fine-tune variations, saving you time and resources. We give you the full picture for each visitor journey, allowing you and your team to develop focused tests, identify winning variants and turn them into profitable and successful digital journeys.
